diaper here

Fabric Requirements

- 1 piece of fabric for diaper lining 10" X 11"
- 1 piece of fabric for outside of diaper 10" X 11"
- 2 pieces of Velcro about 1" X 1"
- Strongly recommended: 1 piece of pattern tracing yardage 11" X 12". Using pattern tracing yardage allows for better placement of pattern on fabric.

Instructions

1. Pin pattern to fabric. Cut out.
2. With right sides together, pin all the way around the diaper. Sew a ¼" seam, leaving a gap for turning.
3. Clip and notch curves, being careful not to cut through stitching.
4. Turn diaper right side out. Press. Top stitch around diaper a scant ¼" from edge.
5. Sew Velcro to diaper, matching with marks on pattern.

TIP: Flannel makes a wonderful baby doll diaper. Repurpose old pajamas and make baby doll diapers for no cost! Also, don't forget thrift stores. They often have fabulous flannel garments for as low as .25¢ each. You can make a lot of diapers for very little money!
